**RESPONSE TO RESTRICTION REQUIREMENT:**

In response to the Restriction Requirement dated March 11, 2003, Applicant elects Group 4, containing Claims 25-31, drawn to a slide system including electrical conductors. This election is made with traverse. Traversal is on the grounds that a search of the art for one group of claims will necessarily include a search of the art for the other groups of claims. Further, it is believed that the burden on the Examiner to examine all of the claims in a single application is less than the burden on the Applicant to prosecute multiple applications.
